

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Rulemaking to implement the provisions of
Public Utilities Code § 761.3 enacted by
Chapter 19 of the 2001-02 Second Extraordinary
Legislative Session.

Rulemaking 02-11-039
(Filed November 21, 2002)

**ADMINISTRATIVE LAW JUDGE'S RULING
SETTING REVISED DATES FOR PLEADINGS
ON COMMISSION IMPLEMENTATION AND ENFORCEMENT
OF GENERATOR OPERATION STANDARDS**

1. Summary

This Ruling sets revised dates for parties to file and serve pleadings on Commission implementation and enforcement of Generator Operation Standards. (See Attachment A.)

2. Commission Enforcement of Committee-Adopted Standards

The California Electricity Generation Facilities Standards Committee (Committee) is scheduled to consider and adopt Generator Operation Standards at its meeting on October 27, 2004.¹ The California Public Utilities Commission (Commission) is responsible for implementation and enforcement of those standards. (Pub. Util. Code § 761.3(a).)

¹ Operation Standards may be accessed via the following Web link: <http://www.cpuc.ca.gov/static/cegfsc/index.htm>. By letter dated September 17, 2004, Presiding Officer Wood said: "The Committee tentatively plans to meet on Wednesday afternoon, October 27, 2004, 2:00 p.m. to 5:00 p.m. (not October 8, 2004 as previously announced) to review and adopt the final version of the Operations Standards."

By Ruling dated September 13, 2004, I set a schedule for parties to file and serve various pleadings. The schedule was in part predicated upon the Committee meeting on October 8, 2004, along with the goal of completing this proceeding by the end of 2004. Given the delay in the Committee meeting date, West Coast Power requested by electronic mail message on September 17, 2004, that some of the adopted dates be delayed. Six parties² joined in support by subsequent electronic mail message. No party stated any opposition.

The request is granted to the extent provided herein. The revised schedule is in Attachment A.

IT IS RULED that parties may file and serve pleadings on Commission implementation and enforcement of Generator Operation Standards. Pleadings shall be filed and served by the dates in Attachment A.

Dated September 20, 2004, at San Francisco, California.
